## MY PROJECTS

### iGiftYou

Nov 2020 - Dec 2020

One of the final projects of Henry's bootcamp was to do an Ecommerce, it is a page that suggests gifts after answering a questionnaire. In this case I worked in a fullstack way, but it was focused on the question system, the cart and the catalog.

Technologies: React, React-Bootstrap, Redux, NodeJS, Express, PostgreSQL, Passport, Sequelize

### El potrero

Dec 2020 - Jan 2021

I worked on the implementation of a registration form for a volunteer and the administration panel of Fundación el potrero.

Using agile methodologies (SCRUM) and good practices in the code.

My incidence was in the FrontEnd.

Technologies: React, Material-UI, Redux, TypeScript.

### Plants Website

Dec 2020

This is a small demonstration of my FrontEnd skills, I was inspired by a Pinterest design.

Made with React and pure CSS.

## WORK EXPERIENCE

### Henry

Nov 2020 = Present

Tutor at Henry: I give extra classes on the topics of each class. I solve doubts and give moral support.

### Data Entry

2015 - 2020

Data Entry in the PAMI Effector System at the service of Doctor Hector Rodriguez, Season Cardiologist

### Piano professor

2014 - 2019

Music is a very complex language and this job gave me the ability to transmit abstractions in the best possible way.
